What CHI members do!

Volunteer Members have an ongoing active involvement in the work of the organisation. There are a variety of volunteering opportunities with Children in Hospital Ireland: working directly with children in our **PlayWell** hospital play services, supporting parents at our **JustAsk** hospital information desks, helping out with our annual awareness and fundraising events and activities.

Supporter Members are parents and individual members of the public who want to support the aims and work of the organisation without necessarily becoming involved as a volunteer.

Health Professional Members are medical, nursing and allied health professionals who want to support and reinforce the organisation's work of ensuring best practice in the provision of health care to children.

Group Members are chronic illness and condition support organisations, professional representative bodies, children's hospitals, units and wards. Group Members are invited to nominate a representative to attend meetings and seminars held throughout the year where issues and concerns relating to the provision of health care to all sick children can be raised and addressed.
